

## FOR IMMEDIATE RELEASE

### Cadsoft Wins *Constructech* Top Products Award

**Guelph, ON, February 8, 2008** — Cadsoft Corporation, the leading developer of home design software for the professional building design market, is proud to announce that Cadsoft Envisioneer has earned a *Top Product* award from *Constructech*.

The *Constructech* Top Products honour the best products tailored for the construction and homebuilding markets. Winning entries were chosen based on product description, the product's overall usefulness and uniqueness to the construction industry, and the customer growth rate for the particular product throughout the past few years.

Envisioneer design software was named Top Product in the *Trusted Products* category for its innovative approach to Building Information Modeling (BIM). With Envisioneer, clients can easily model a complete structure, generate a full set of permit working drawings, and calculate a materials list instantly.

"This Top Product award is a testament to how easy and efficient it is to complete a project in Envisioneer," says Brad Finck, VP Business Development for Cadsoft Corporation. "We are extremely proud that Envisioneer's power and strength is being recognized in the residential design industry."

"The winners of the *Constructech* Top Products show remarkable innovation in an ever-changing environment. I commend them for helping their customers compete in the marketplace," said Peggy Smedley, editorial director of *Constructech*. "We are excited to recognize these companies. With this listing of Top Products, *Constructech* hopes to bring our readers a look at the best the industry has to offer."

To read more about the residential winners, don't miss the February issue of *Constructech*.

### **About Cadsoft™ Corporation**

Founded in 1984, Cadsoft Corporation is a leading developer of solutions for residential and light commercial designers, builders, remodelers, interior designers, and contractors. Our software solutions offer 3D design, working drawings, framing, rendering, animation, material take-off, and links to most major estimating packages. Cadsoft Envisioneer is the easiest-to-use BIM solution available in the industry today. It provides clients with a unique marketing advantage and unsurpassed production capabilities. Visit [www.cadsoft.com](http://www.cadsoft.com) for more information.

### **About Constructech Residential**

Looking at information technology, building control automation, and automated home technology through the eyes of the builder, contractor, and corporate owner, *Constructech* magazine is focused on providing the construction industry with the necessary tools to increase productivity and profitability. *Constructech* Residential takes the perspective of the homebuilding professional in uncovering the true value of automated home technology options and information technology tools.
