

CADSOFT® CORPORATION RELEASES CZECH REPUBLIC VERSION OF ENVISIONEER™

GUELPH, Ontario, Canada, February 3, 2009 – Cadsoft Corporation, the leading developer of Building Information Modeling (BIM) design software for the professional residential design market, today announced the release of Envisioneer™ to the Czech Republic.

In partnership with Czech Republic based ŠPINAR - software s.r.o., Envisioneer is available in the native Czech language to the Czech and Slovakia Republic marketplaces. Along with the software, Envisioneer purchasers in these regions have access to localized help files, learning materials, and a regionally focused catalog of building elements and materials. In addition, the construction market in this global region has access to all of Envisioneer's capabilities including 3D presentations, complete working drawing production, and full bills of materials and project estimates generation.

"We are extremely pleased to be working with ŠPINAR to deliver Envisioneer to the Czech and Slovakia Republic marketplace" says Brad Finck, Vice President for Cadsoft Corporation. "As Envisioneer continues to become localized for even more international construction markets, its power and versatility is rapidly gaining greater global recognition."

"Having a localized version of Envisioneer for our markets is exciting for us," says Milan Špinar, Vice President of ŠPINAR - software s.r.o. "We are already very strong in the architectural CAD market and the addition of Envisioneer gives us greater presence with a stronger offering to the construction marketplace."

Envisioneer is available immediately through ŠPINAR - software s.r.o and the authorized Cadsoft Czech Republic business partner channel.
