

## FOR IMMEDIATE RELEASE

### ***CADSOFT SIGNS TEC AS EDUCATIONAL DISTRIBUTOR***

**Guelph, ON – October 25, 2006** - Cadsoft Corporation is proud to announce that it has signed Technology Educational Concepts Inc. (TEC, Inc.) as a key educational distributor for its award winning Envisioneer™ design software solution.

Since 1988, TEC has provided educators and students quality software solutions and services. TEC evaluated and chose Envisioneer because of its easy to use interface, powerful modeling capabilities and its ever-increasing residential market presence.

Envisioneer is fast becoming the software solution of choice for the residential architectural, building, remodeling and interior design markets. By forming a relationship with TEC, Cadsoft now has a superior vehicle for distributing Envisioneer to the educational community.

“We are very excited to have TEC as the newest member of the Cadsoft team” says Brad Finck, Vice President of Business Development. “TEC’s knowledge of the educational marketplace is the key to their long history of success. We believe that through TEC’s distribution channels, Envisioneer will have the exposure it needs to become an educational mainstream solution.”

Richard T. Amarosa, President and CEO of TEC, states, “We evaluated the industry’s architectural software solutions and Cadsoft’s Envisioneer product emerged as the logical choice for a long term relationship. Both the company, with its commitment to young people, and the Envisioneer product are ideal for bringing the many diverse disciplines of architectural drafting and design to the educational market.”

Envisioneer Student and Classroom Faculty seats, along with Cadsoft’s Interactive Training series of videos are available for immediate purchase through TEC’s educational channels. TEC is currently in the process of creating classroom text and curriculum material.

### **About Cadsoft™ Corporation**

Cadsoft Corporation is a premier developer of solutions for residential and light commercial designers, builders, remodelers, interior designers, and consumer home enthusiasts. Founded in 1984, Cadsoft provides solutions that offer 3D design, working drawings, framing, rendering, animation, material take-off, and links to most major estimating packages.
