

If you are using the *Windows Vista*™ operating system, please follow the instructions below to ensure Envisioneer 3.0 runs properly. Please note that both the **Authorization** and **Update** portions of this document must be completed.

To Update Envisioneer to run on Vista

If you are using *Envisioneer 3.0*, please go to the Service Releases page of the Cadsoft web site to download and install the update patch designed to make *Envisioneer 3.0* compatible with *Windows Vista*™.

Follow this link: <http://www.cadsoft.com/service.html>

To Authorize Envisioneer to run on Vista

1. If you are using *Envisioneer 3.0*, please make sure you are logged in as an Administrator.
2. When running the program at the actual time of authorization you must force the program to be “Run as administrator “ when launching the program.
